### GEARY CRAWFORD

This week on the newsletter we will be talking about our new eighth grade science and agriculture teacher, Geary Crawford. Mr. Crawford is married to the love of his life, Deborah Crawford. He enjoys spending his free time fishing, hunting, and spending quality time with family and friends. He has a passion for teaching and loves to mentor young people. Mr. Crawford has been teaching for 31 years. He has taught at many different schools in different states but also coached sports for 26 years. Coach Crawford has started his Beagle Kennel in honor of his father who started raising beagles in 1957. He also enjoys getting students involved in 4-H and FFA livestock shows. Mr. Crawford would like the people at Mangham to know that he has a passion for helping kids who others might feel are unreasonable and he truly believes that if we give away love and kindness to others we will receive love and kindness.

### Walk A Day in My Sneakers

This is an opportunity for parents to come see what it is like for our students everyday. Parents/Guardians will have the opportunity to sit in class with their child and participate just as the students participate. It is one of our favorite days of the year! We hope to see you here!

## Reminders

I think that you should definitely think about joining 4-H. 4-H is a place where you can let out your love for cooking, shooting (competitively), being artistic, and many other things. We have a very good group this year and hope to see you there.
